### About Turkish Confectionery Sector

Sugar and chocolate confectionery sector is one of the most dynamic sectors in Turkey, due to several factors, such as rapidly growing and young population with its growing demand, developing distribution channels, manufacturers' stiff advertisements, new product developments and increasing multinational investment. The sector has become one of the most important subsectors of the food industry by using modern technology. It has the most advanced technology in near region.

The products are more widely diversified and have higher quality.

Turkish exporters are highly equipped to meet international standards and consumer preferences.

The Turkish food industry has important export opportunities due to the diverse agricultural products available in the country and integrated with the world economy.

### Advantage of Being Self-sufficient of the Main Ingredients...

#### From Tradition to the Future...

Confectionery and chocolate sector is historically based on the production of traditional Turkish confectionery products such as Turkish delight and baklava. The sector has been experiencing a rapid development and modernization process, especially since 1990's. Due to its production volume, sales power, product variety and distribution capacity, Turkey is a pioneer in many segments.

### Backed by Decades of Experience and Meeting the Consumer Expectations...

By using modern technology and scientific and hygienic methods, the product diversification has been highly enhanced. Turkish confectionery and biscuits sector pay attention to meet the expectations of the consumers in local and foreign markets. It is highly important to have a product line and quality in parallel with the consumer's existing needs, desires and expectations. Today, products are more widely diversified and have higher quality. Many companies are applying quality systems like HACCP or ISO 9000 standards and trying to satisfy further demands of their customers. The export package shape, size, material and design are prepared according to buyers' requests.

Turkey has the advantage of being self-sufficient of the main confectionery ingredients. Turkey is also in a very advantageous situation in the world production of dried fruits (dried apricots, raisins etc.) and edible nuts (hazelnuts, pistachios etc.)

### All Kinds of Delicious Confectionery

Turkey is an emerging a confectionery and biscuits producing and exporting base between Europe and Asia. There is wide product range in Turkey, that contains various kinds of cacao products, unsweetened chocolate, compound chocolate, couvertures, bitter or sweet chocolate, white chocolate, hard and soft candies, jellies, chewing gums, bubble gums, bonbons, halva, baklava, dragees, toffees, lollipops, marshmallows, Turkish delight, biscuits with custard cream or sesame, petite beurre, crackers, wafers, etc. Many companies also invested in innovative or value added ingredients, such as 'super fruits' for many confectionery products.

### Turkish Confectionery known in more than 150 countries

Due to the unique features of confectionery and chocolate, Turkey has a wide market range in export. Turkey exports confectionery and biscuits more than 150 countries all over the world. The Europe, the Middle East and the USA are the major destinations in Turkey's confectionery export.

### About IIB

Istanbul Exporters' Associations (IIB), which began to operate in 1940 with the foundation of Istanbul Cereals Pulses Oil Seeds Exporters Association, is one of the 13 general secretariats in Turkey. There are seven Exporters' Associations under IIB's roof that operates in the sectors of all kind of food, furniture, packaging and boats-yachts. The main aim of IIB can be defined as enhancing export capacity and performance in relevant sectors and supporting its member companies for better commercial relations and practices in foreign trade. IIB maintains several activities and practices such as; organizing international exhibitions, specific trade promotion and development activities, statistical data collection, data analysis and reporting, vocational training activities, consulting and coordination activities, periodicals and publishing etc.

### About Turkey

Turkey lies between Asia and Europe serving as a bridge geographically, culturally and economically. Thanks to its favourable ecological conditions and climate, Turkey benefits from a major agricultural sector and is the largest producer and exporter of agricultural products in the near region.

#### Turkey's Advantages;

- Advantageous geographical location,
- Favourable climate conditions,
- Proximity to major markets

With its favourable geographical conditions and climate, Turkey is considered to be one of the leading countries, especially in the field of agriculture and related industries. This impressive position is best attested by rising exports in almost every kind of agricultural products.
